

Billi™

Sahara Range

Intelligent design and enhanced performance

As an alternative to the boiling and chilled systems, the Sahara range dispenses boiling and an unlimited source of ambient filtered water.

Features and benefits

Safety first

Billi's splash-free boiling water delivery means that the water flow is electronically varied, slowing momentarily to eliminate splashing as the water first enters the cup. All Billi dispensers are supplied standard with a safety switch.

Minimal energy consumption

Superior insulation is critical to the sustainable performance of any integrated boiling system. The Billi Sahara utilises high-performance technology and insulation materials which operate at a level of efficiency which exceeds 50 times that of a traditional hot water tank.

Eco-Intelligence technology

The Billi Sahara incorporates Eco-Intelligence technology which is a self-learning timer allowing the unit to only operate when required. The self-learning timer monitors daily usage patterns and even recognises evening and weekend changes in routine to effectively minimise energy consumption.

Smallest under bench footprint

The Sahara range is 310 is the smallest unit in the Bill range, requiring 100mm less space than larger capacity systems. Larger capacity systems still maintain considerable space saving advantages when compared to other products in the market.

Unlimited ambient water

The Billi Sahara offers an endless flow of fresh, pure filtered water.

Versatility and function

Billi's range of Sahara systems offer BOTH Boiling and Ambient temperature water making it one of the most functionally versatile products on the market.

Water options

Option	Boiling	Ambient
Sahara		

Configuration

No cupboard ventilation or a cooling fan required.

Technical specifications

Model	Suggested number of people	Boiling water delivery cups per hour [^]	Ambient water delivery cups per hour	Current Required amps	Height (mm)	Width (mm)	Depth (mm)
Sahara 310	Up to 10	Up to 90	Unlimited	10	340	180	360
Sahara 320	Up to 20	Up to 120	Unlimited	10	340	180	460
Sahara 360	Up to 60	Up to 165	Unlimited	10	340	180	460
Sahara 3120	Up to 120	Up to 220	Unlimited	10	340	180	460

[^] Based on a set volume of water being drawn every 30 seconds at an inlet temperature of average temperature 21°C. Each cup is equivalent to 170ml. Usage patterns and draw-off methods can impact recovery.
